I'd like to submit the following 3 draft maps for the Board of Supervisors' consideration at the November 2 public hearing:

 This map moves Florin and Vineyard antlo the Elk Grove/south county district (current Supervisor District 5)—they have much in common, or geographically close together, share common social and economic ties, and it keeps large Asian Pacific Islander communities of interest together. It also puts Rancho Cordova and Folsom in the same district—they share a school district (Folsom-Cordova USD), so there is a community of interest because their children go to the same schools. This map ensures that the voice of the unincorporated/non-city area within their boundaries. However, it maintains Supervisor District 3 as a predominately unincorporated district, to ensure that the voice of the unincorporated community, arguably a community of interest, has a distinct voice on the board.

Also, these areas are all in the Elk Grove Unified School District, so their kids op them sechools. This map puts Rancho Cordova and Tokson in the same district—they share a school district (Folomon-Cordova USD), so there is a community of interest because their children go to the same schools. It also keeps Rancho Cordova and Rosenont in the same district because they are in the Cordova Recreation and Park District and so they share common amenities, recreation programs, and other interest relating to creation public services. It creates a Business 80 corridor district of Arden-Arcade, Carmichael, Foothill Farms, and Citrus Heights—these communities fall along the freeway and share much in common. This map also ensures that every supervisorial district has a balance of city/non-city.

It's my understanding that today is the initial deadline for draft maps from the public. Will there still be an opportunity for members of the public to submit maps for consideration after today? I have some friends & neighbors who may also want to submit maps as well.
