I just discovered that I am not in district 4 am actually in district 1. I live in Rio Linda why would my neighborhood not be in district 4 with the rest of Rio Linda instead of district 1 that is completely in the boundary of Sacramento city? WTH so we are Serna's little dumping ground. We are in no way represented by this councilman. Please move ALL of Rio Linda into a district that is represented by a councilman that represents similar county neighborhoods and not a sac city councilman.
